

PLEASE NOTE:

OUR GUEST PASSES HAVE CHANGED.

FOR DETAILS – PLEASE READ THE GUEST POLICY SECTION OF THE POOL RULES & REGULATIONS.

We love babies, but.....

Whenever fecal matter is exposed to the pool water an unsanitary condition is created. In order to properly cleanse the water everyone is swimming in, the Montgomery County Health Department requires that we recirculate the entire body of water through our filtration system. Our pool is very large, and this takes many hours to complete before the water is deemed safe for swimming.

Because there have been too many of these incidents in previous years we will require that infants and toddlers still in diapers must also wear rubber pants over their diapers.

If you forgot to bring yours, rubber diaper pants will be available to purchase at the pool at our cost.

Thank You
